In the News

It's a new year, and with it, a new format of the Shore Stakeholder. We hope you like the new format, and we appreciate you reading to find out about the great things going on here at Shore!

New Video Display

Thank you to Mr. Miller and Mr. Duy for setting up a new scrolling video display near the Main Office. We love to showcase our students!

HOPE

Jr. Model UN

Homework Hotline

Please click [HERE](#) to access your child's homework, and please know some assignments are subject to change based on student needs. We hope this makes accessing information easier for you!

Some key points for Homework Hotline:

- Week of Homework Hotline located at the top
- Teacher name by alphabetical order on the left, Column A
- Day of the week in gray in row 1
- Colored tabs (bottom left) for grade level
- We will be working to refine this new system as the school year progresses

See something, Say something

Often, you as parents may see or hear things from your child(ren) that we were not able to observe.

Please contact your child's teacher first, then the office, if something does not seem right.

We are here to support you and your child and ensure a safe environment where all students can learn. The main number at Shore is 440-257-8750. Thank you.

Our middle school Jr. Model United Nations (Jr. MUN) teams traveled to John Carroll this week for their Winter Conference. The students worked hard to prepare for this conference by researching and writing a position paper based on their country's views on specific topics.

At the conference, students took on the role of their country and debated with their fellow delegates to try to come to a world-wide resolution to solve the problems at hand. This winter, Shore students represented countries on the Security Council, Human Rights Council, High Commission for Refugees, and the International Atomic Energy Agency.

We would like to extend congratulations to our team for playing an integral part in writing and passing several resolutions. And, a special congratulations to Jackson Kramer and Andrew Freeman for winning the Superior Delegation Award for the country of Poland on the United Nations Security Council. Good luck to the team as they now begin to prepare for their spring Conference in April! You can see our team in action on Mrs. Compton's Twitter account, @ComptonSS209.

Great job!

2019 MLK 3 on 3 Basketball Tournament

Monday, January 21

Tournament starts at 1:00 pm

Mentor High School Main and Auxiliary Gyms

Mentor High School is hosting its ANNUAL MLK 3 on 3 TOURNAMENT for grades 3-8 both boys and girls. Click [HERE](#) to access the flyer and sign up!

<p>Lego Robotics June 24 - June 28 Paradigm 6 & 7th Graders</p> <p>Experience the amazing world of FIRST LEGO League! This camp is designed to give beginners a taste of the fun of the FLL season. Campers will learn the basics of building and programming a Mindstorms EV3 Robot. They will develop collaborative skills while working in teams to research a real world problem and develop an innovative solution. Please bring a light snack, a water bottle, and earbuds.</p>	<p>Coding June 10 - June 14 Paradigm 3-5th Graders</p> <p>Participants will explore the basics of computer coding and work with free web tools and apps. We will also work with a small programmable robot and play games to learn the language of coding. Students will use code to create a unique artistic design that they will wear home on a tee shirt. We'll end the week with an exposition for families so we can share all the wonderful things we've explored. Campers will need to bring a light snack, a water bottle, and earbuds to camp each day.</p>	<p>3D Design June 3 - June 6 Shore Middle School 7 & 8th Graders</p> <p>3D printing and design are some of the fastest growing STEM fields. 3D Printing and Design Camp is a four-day experience. Campers will have the opportunity to design and 3D print, vinyl cut and laser engrave their own original creations, and objective-based pieces for camp projects and challenges. All campers can take home their projects at the end of the week. Come experience the latest and greatest 3D modeling and printing products Mentor Schools has to offer!</p>
<p>WoodWorking June 10 - June 14 Shore Media Center 8 & 9th Graders</p> <p>Woodworking camp will teach students about workshop safety, tool safety, wood as a building material, project layout and planning, hand and power tool usage, fasteners and assembly. During camp, participants will build an Adirondack chair using the techniques and processes that are taught and additional projects may be added depending on time. This camp will spend the week in the woodworking lab at Mentor High School. Campers should bring a snack and water to camp each day.</p>	<p>VEX Robotics June 3 - June 7 MHS I-107 8 & 9th Graders</p> <p>VEX Robotics Camp will take students through designing, building, programming and racing a VEX robot. After creating a ClawBot, students will compete in the ClawBot Olympics, a Mario Kart bot where participants will race and try to knock out fellow campers' bots, and a Mars Rover bot that will be programmed to go through an obstacle course. Parents are invited to race/competition days. Students will learn robot design, problem solving and collaboration.</p>	<p>Cooking With Cards June 3 - June 7 MHS D-101 4-6th Graders</p> <p>Cooking with Cards will give your child(ren) the opportunity to work in a kitchen with other students their age while being supervised by experienced Family & Consumer Sciences teachers. Students will learn basic cooking techniques including safety & sanitation practices. Students will utilize their reading, math, & teamwork skills during this camp when reading & preparing recipes. This camp will help students gain confidence in the kitchen as well and encourage them to try new foods & recipes.</p>

Seventh Grade Parents/Guardians

Plans for a May 16 trip to Cedar Point are in the works. The trip will cost \$70, which will include the ticket, transportation, and lunch. Those with season passes will have a reduced cost of \$30 which covers transportation and lunch. More information will be forthcoming, but the final payment date will be Friday, March 22. All students will need their signed Permission Slip, Payment, and Annual Update completed by 3:45 pm on March 22, or they will not be able to attend.

Further as mentioned earlier in the year, if a student received 2 ASRs or more, a Saturday School, or suspension, they must take part in the appeal process to be able to go. More information will be coming regarding this aspect.

Buses will leave Shore at approximately 9:00am and will return at 8:00pm. Please be sure to save the date and start saving money for the tickets if you want to go. We look for this to be a great experience for all students. Thank you!

Eighth Grade Parents/Guardians

This past Fall, your 8th grade student completed the PSAT 8/9 exam. This exam was administered to all 8th and 9th grade students in the district. You will soon be receiving your child's score report in the mail.

In addition, scheduling for the 2019-2020 school year is underway. Throughout the next few weeks, 8th grade students will be receiving information about Mentor High School course offerings, scheduling and graduation requirements, and the transition to high school. Please encourage your students to continue these discussions with you at home and review this information.

Mentor High School will be hosting an "8th into 9th Grade Transition Meeting for Parents" on Wednesday, January 30th, at 7:00pm in the Mentor High School Fine Arts Center.

We hope that you are able to attend this event. Thank you.

Washington, D.C.

Final payments for the Washington, D.C. trip are due on Friday, March 15, 2019. Please keep in mind this is the Friday during Spring Break. All payments are made online. Thank you!

Fostering a Future

The Lake County Department of Job and Family Services is having Open House meetings and Pre-service classes regarding foster care and adoption. Lake County needs foster homes for all ages of children and are hoping YOU can assist!

Please call 440-350-4218, or contact Gene Tetric at eugene.tetric@jfs.ohio.gov for more information or click [here](#) for more information.
